## Pole Line Hardware

Earth Contact Products (ECP) is "The Very Best" manufacturer of USA Made pole line hardware in the utility industry. Their ability to supply poleline hardware that meets the highest quality standards in a timely manner sets us apart from the competition. ECP is dedicated to providing the highest quality pole line hardware products along with outstanding customer service and lead times.

Utility Pole Line Hardware products include:

- Dead End Tees
- Guying Tees
- Double Arming Bolts
- Steel Dead End Cross Arms
- Flat and Curved Square Washers
- Lateral Support Braces
- Cross Arm Braces

ECP has been manufacturing pole line hardware and guy anchors for the electric utility industry since 1998. ECP Utility prides itself on producing only high quality hot dipped galvanized pole line hardware, including double arming bolts, square washers, eye nuts, cross arm braces and guy screw anchors. Our USA Made products meet the quality standards of local, national and international bodies such as the American Society for Testing Materials (ASTM), American National Standard Institute (ANSI) and the National Electric Manufacturers Association (NEMA).

After fabrication processes have been completed our pole line hardware and accessories are hot dipped galvanized in accordance with ASTM A-123 (Standard specification for zinc coatings on iron and steel) and ASTM A-153 (Standard specification for zinc coating on iron and steel hardware). Combined with our extensive internal QA program, ECP Utility assures the production of the finest poleline and anchor products in the industry.

For more specific information about our pole line hardware see our product data downloads.
